

KLOVE is an important part of my community. It gives me an alternative to the trashy Top 40 music that is already played on to many stations without also listening to a deluge of commercials. IF KLOVE were replaced it there would be no place on the local airwaves to get the positive uplifting message that is characteristic of KLOVE broadcasts. This market is dominated already by too many TOP 40 stations. There is no other outlet for the type of music that KLOVE plays. Without KLOVE the airwaves would just be the same thing in different packages.
